

Extra class spirometry – a plus in hygiene and comfort

Spirostik Blue

Intuitive software platform

User-friendly with automatic diagnosis interpretation.

Automatic BTPS correction

The optional Ambistik ensures full-automatic BTPS correction in real time.

State-of-the-art software for pulmonary function diagnostic

Uses a powerful SQL database to store data. This allows PFTS to either be optimally integrated in a complex network environment or to be used as a single-user solution spirometer.

- Easy installation
- Clear and well layed out screen presentation
- HL7 and HL7 interfaces
- Networkable
- Powerful SQL database for secure data management and statistical evaluations
- WYSIWYG report generator

High mobility

The wireless Bluetooth-Interface connects within seconds.

Maximum patient safety

The „snap-in handle“ allows HPI to be changed within seconds. Additional PFTS not needed.

Low Resistance

7KPa HLV comfortable for patients.

Smart power management

Automatic Stand-by and Power-Up allow long battery lifetime.

Reliable test results

Continuous inspections in production assure reliable test results.
